

Important Information for OCI Card holders

As per existing rules, OCI card holders can get their OCI card reissued, on their new passport after their 20th birthday.

In order to avoid inconveniences that may result from the ongoing COVID pandemic, the government of India has further extended the period in which OCI cards can be reissued until the 31st of December 2022.

OCI card holders in such a predicament will be allowed to travel with their existing OCI card bearing an old passport number, under the condition that a new passport is in their possession when travelling.
